

LabLINK

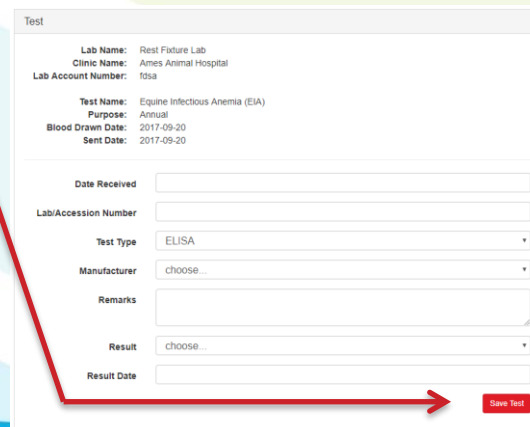

1. To result an EIA (Coggins) test through GVL, log into LabLINK. You will be taken directly to the Inbox. You will see Pending and Ready are the tabs in the Inbox.

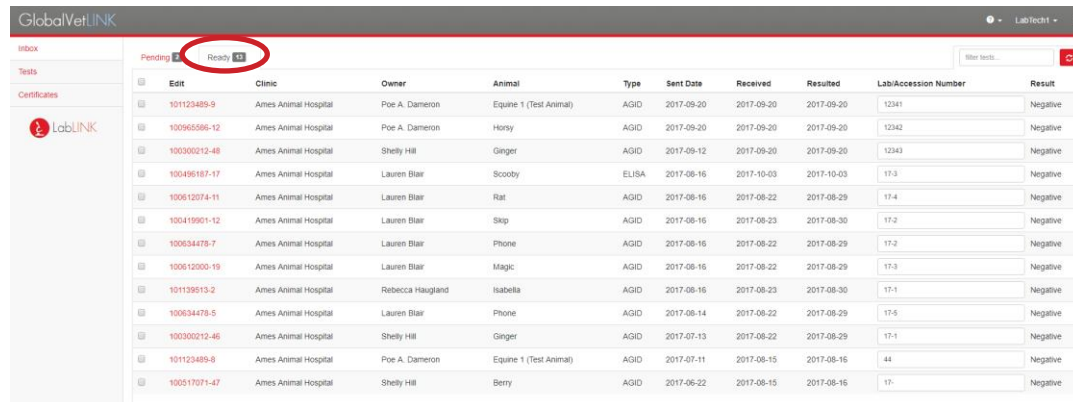

2. To enter test information, click on the red number in the Edit column on a test in the Pending tab. This will open the test and display the information that the veterinarian has entered.

3. You will need to enter the Date Received, Lab/Accession Number, Manufacturer, Result and Result date to complete the test. The Remarks field is an optional field; only lab techs associated with your lab will be able to see information entered in the Remarks field. Once you have entered the information, click the Save Test button.

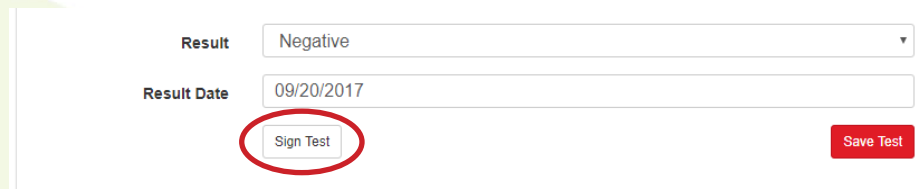

- Once you have saved the test, it will automatically move from the Pending tab to the Ready tab. It is now ready to be signed. **Important Note:** the lab tech who saves the test is the only lab tech who will be able to see the test in the Ready tab. Once you enter information, you must be the one to sign the test.

- Next, click the Batch Edit button that displays in the upper left. This will bring up a box for you to enter the necessary information into. Once you have completed the information, click the Update Tests button. This will move the tests to the Ready tab.

- To Batch Sign test, check the boxes to the left of the tests you want to sign. Next, Click the Batch Sign button that displays in the upper left. Enter your Username and Password and click Sign Tests to complete the tests.

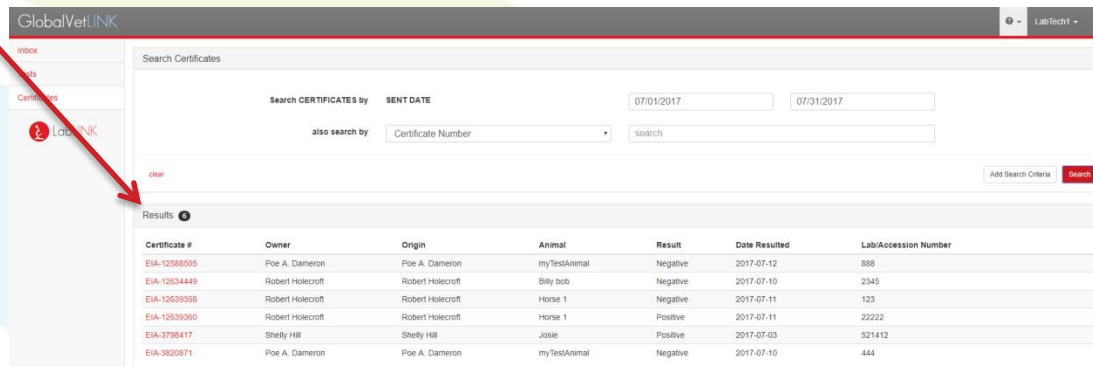

9. LabLINK also gives you access to the tests and certificates that you have completed through your lab. In the Tests tab, you can search for tests you have completed during a certain date range. By clicking on the Test ID, you can view the information that was entered by both you and the veterinarian. If you check the Run Report box before searching, a list of the clinics and number of tests you have completed for each of them will display at the top of the page.

11. At the bottom of the Certificates page, you can also run monthly reports.

Select a month and a year and click Get Report. An excel document will download and will show the clinic and test information for all tests completed during the month selected.

The screenshot shows the GlobalVetLINK interface. On the left is a sidebar with navigation links: Inbox, Tests, Certificates, and LabLINK. The main content area is titled 'Search Certificates'. It includes a search form with 'Search CERTIFICATES by SENT DATE' and date pickers for '01/01/2017' and '08/25/2017'. Below this is a section 'also search by' with a dropdown menu set to 'Certificate Number' and a 'search' button. A 'clear' link is also present. Below the search form is a 'Results' section with a table header: Certificate #, Owner, Origin, Animal, Result, Date Resulted, and Lab/Accession Number. At the bottom of the page is the 'Monthly Reports' section, which has dropdown menus for 'January' and '2017', and a red 'Get Report' button. A red arrow points from the text above to the 'Get Report' button.
