

# Adding **GVL Connect** as an Extension to Microsoft Edge

## Find and add an extension to Microsoft Edge:

1. In Microsoft Edge, select **Extensions**, located to the right of your browser address bar.
  - a. **Note:** If you don't see **Extensions** to the right of your browser address bar, select **Settings and More > Extensions**.
2. Select **Get Extensions for Microsoft Edge**.
3. Find **GVL Connect** and select **Get**.
4. At the prompt showing permissions required by the extension, carefully review the permissions, and then select **Add extension** if you wish to proceed.
5. You'll see a final prompt confirming that the extension has been added.

## Add an extension to Microsoft Edge from the Chrome Web Store:

Extensions designed for Google Chrome can also be used in Microsoft Edge.

1. In Microsoft Edge, go to the [Chrome Web Store](#).
2. Select **Allow extensions from other stores** in the banner at the top of the page, then select **Allow** to confirm.
3. Select the extension you want to add and select **Add to Chrome**.
4. At the prompt showing permissions required by the extension, carefully review the permissions, and then select **Add extension** if you wish to proceed.
5. You'll see a final prompt confirming the extension has been added.
